Disaster Drill Results

On Saturday June 1st, the Canton and Massillon Amateur Radio Clubs participated in a disaster drill planned in part by Ed Cox of the Stark County EOC. It appears that the federal government mandates that you conduct these drills periodically and June 1st was our lucky day.

It all started with a phone call the day before from Ed. He requested our assistance with communications at the EOC. The mock disaster was a toxic chemical leak from a tanker car in the rail yards of Wheeling & Lake Erie near Brewster. The drill involved the sheriffs department, Brewster Fire/EMS, Hazmat, Western Red Cross, the EOC and of course, amateur radio. Our job was to pass traffic from the EOC to the incident scene using the county's low band rig, and to provide back up communication in case that failed. And that it did.....

The initial incident took place at 7:40am, and we proceeded to do our jobs. We were severely handicapped using the radio equipment provided to us by the county. The incident scene was in Brewster and we were trying to pass traffic from the EOC on Rt. 62 using low band simplex. Due to the distance and very outdated radio equipment, 2-way communication was almost impossible. We even attempted to use a central dispatch center (Red Center) located in downtown Massillon as a liaison, but that was congested and too unreliable.

By 9:00 we had had enough, it was time to involve amateur radio. With Jim WA8GXM at the incident scene, Terry N8ATZ at the Massillon A.R.C., John N8WHH, Jim N8MAA, and Dale KB8LWP at the Stark County EOC, we were able to provide reliable and timely communication all around.

The drill wrapped up around 11:00am and some of the key people involved were invited to a critique meeting back at the EOC. One of the major concerns echoed around the room was the communication problem and how well the amateur radio operators were able to jump in and help provide reliable communication through amateur radio. There were three Stark County Commissioners present during the drill and they got a real taste of just how outdated and antiquated the county's radio equipment is. One commissioner was quoted as saying he was very happy that the county sales tax had passed and that would help fund the revamping of the county's radio system.

When all was said and done, the drill involved a tanker leak, one casualty, 250 evacuees, 60 people being decontaminated, a Red Cross shelter at Fairless High School, and all associated public services. A job well done by those who participated.

Safety Break Resultsby Sandy, KB8FZX

Now that the safety break is behind us and as I tally up our donations and our expenses, we had a pretty successful weekend. The total amount donated and deposited to our club was \$892.76. I won't have an exact profit total until we receive a bill from Cameron Cola.

We had approximately 90 dozen cookie and brownies baked and donated, and also Donut Connection helped again with our cause. Here is a list of all I know who baked goods: Shirley Rex K8MZT, MaryAnn KB8IVS, Larry AA8NV, Mrs. Warren Thoroughgood, Dave WD8AYE, Helen Erdos, Mrs. Denny Frey, Shirley Hunter, Sandra N8TZB, my mom, my sister and myself.

Here is a list of those who gave us their time to help at the safety break. Julius KD8XD, Dick WB8VUN, Sandra N8TZB, Dale KB8LWP, Paul KF2AA, MaryAnn KB8IVS, Jerry KA8AHF, Warren KA8IVW, Lee KA8FTM, Wade WD8MIU, Denny N8UDL, John N8WHH, Sarah, KC8ACW, Everett N8EIL, Don WD8DEA, Juanita KC8CQC, Diana KC8AXU, and a special thanks to John KB8ZWY and Shirley Hunter for coming out and helping with whatever came up.

Comment Deluge Follows 2 Meter/70cm Band Threat

(copied from the ARRL Letter, Electronic Update)

Hams have responded in force to defend the 2-meter and 70-cm bands against a threat from the Mobile Satellite Service (MSS). Over the past week, hams have directed more than 1000 comments by letter, e-mail, telephone and fax to representatives on Informal Working Group 2A (IWG-2A), which is preparing draft US proposals for the 1997 World Radiocommunication Conference. The IWG-2A's list of "candidate bands" for low-earth-orbit mobile satellites ("little LEOs") includes the 144 and 420-MHz bands, among others suggested for consideration. Little LEOs are intended mainly to offer commercial paging and other low-data-rate messaging services.

The list of candidate bands was submitted by little LEO industry representatives at a May 7 IWG-2A meeting. ARRL Technical Relations Manager Paul Rinaldo, W4RI, was present and objected strongly to the inclusion of these two bands. He was told that objections should be submitted in written comments, and the ARRL did so on May 15. Despite the objections, the two ham bands remained on the table, prompting ARRL Executive Vice President David Sumner, K1ZZ, to issue a call to actions in his July 1996 QST editorial. The editorial--circulated far and wide by e-mail and packet radio--generated so many responses that the FCC has had to modify its procedures to cope with the deluge!

Instead of directing comments to the individuals listed in the pre-press version of Sumner's editorial, the Commission's new procedures ask that comments by e-mail be sent to: wrc97@fcc.gov. Written comments, with an original plus one copy, should be sent to: Office of the Secretary, Federal Communications Commission, Washington, DC 20554. Each comment should include at the top, "Reference No. ISP-96-005" and "Advisory Committee Informal Working Group 2A." The FCC staff assures us that comments will be given prompt consideration.

Again, for the most expeditious and efficient consideration of your comments, the FCC asks that amateurs not send comments directly to the chair of the WRC-97 Advisory Committee, to the chairs and vice-chairs of the Informal Working Groups, to individual FCC staff members or to private-sector participants in the Advisory Committee process. Spread the word about this new commenting procedure.

In the wake of the deluge of comments directed to individuals, Chairman of the Industry Advisory Committee Scott B. Harris asked Sumner in a June 5 fax to call off the campaign and accused the League of unfairly targeting private-industry representatives on the committee. "The tactic ARRL has chosen to use in this process in neither necessary nor appropriate," Harris wrote. Sumner suggested Harris was misinformed about the ARRL's intentions to educate its membership. "The League has participated actively in the IAC, IWG-2A, and other IWGs as appropriate, and will continue to do so," Sumner responded. "Our 'campaign' is not to 'protest' the work being conducted in IWG-2A. Rather, it is an educational campaign." (The complete text of both letters is available on the ARRL Web Page, <http://www.arrl.org>.)

In a June 5 letter to Sumner, the FCC's Cecily C. Holiday--who's director of the WRC-97 Preparatory Team--expressed assurances to the Amateur Radio community that "no amateur bands have been selected for reallocation." She said the list of bands generated at the IWG-2A's May 7 meeting "represent only the IWG-2A's initial efforts to study spectrum use below 1 GHz in order to assess the feasibility of proposing worldwide MSS allocations in that range." She called the proposals "only the initial component of a long-term effort to conduct sharing studies before submitting the Committee's proposals to the Commission for review."

Holiday said that, before recommending preliminary proposals for consideration by the Commission, IWG-2A participants "must first conduct sharing studies among a range of services using frequencies below 1 GHz" to find out if it's feasible to share among services and to recommend specific frequency bands.

Holiday said that all written and electronic comments from Amateur Radio operators received at the Commission have been included as part of the public record on WRC-97. For additional information, contact Cecily C. Holiday, Federal Officer of the WRC-97 Advisory Committee, at International Bureau, FCC, Washington, DC 20554, or Damon C. Ladson, Alternate Federal Officer at 202-418-0749, or consult the WRC-97 Homepage at <http://www.fcc.gov/ib/wrc97/>.

Remember: Do comment. But be civil. Don't abuse people who are simply doing their jobs.

VE Exam Results

A VE testing session, led by Gary WC8W, was held on Saturday May the 25th, at the Stark County EOC. Twenty people showed up to test, and 18 walked away with a certificated of completion for at least part of their license. The results were: 2 novice, 8 no-code techs, 2 techs, and 2 generals.

The next testing session will be August 31, 1996 at 9:00am at the EOC.

It's Parade Time Again!!!

As we have for many years in the past, we are looking for volunteers to help provide communication for both the Hall of Fame Junior and Grand Parades. Our primary purpose will be to provide emergency communications for these events. The Junior Parade is Sunday July 21st at 3:00pm. The Grand Parade is Saturday July 27th at 7:30am.

If you are interested in helping out and can donate a few hours of your time, please contact Judy N8AIM @ 499-2520 for the Junior Parade, and John N8WHH @ 966-0467 or Dave WD8AYE @ 875-1505 for the Grand Parade. Thank you in advance!
